

Hi, This past year has been very pleasant and relaxing. We were so sick of answering the phone, worried it might be a relative in need, but dreading the nagging phone calls of the tele-marketers and charities. We averaged 6 to 7 unwanted phone calls per night. We refuse to purchase equipment to try and screen these people out. It has been nice eating dinner and watching television in peace. Please continue to save our sanity and relaxation time. After a hard day at work we don't want to have to deal with these intrusive callers. If we want to donate we will do so based on past experience or through mailings. Please continue this privacy phone act and keep our names on the list. I know my mother, who has been ill, has been relieved since the phone calls have stopped.

Thanks

Alice Cope
